

**WHAT ARE THE BENEFITS OF AN ELECTROSTATIC DISINFECTION PROGRAM?**

- Eliminating pathogens and microorganisms up to 99.9999%
- Providing a level of assurance to your employees that the facility is guarding against the spread of COVID and other transmittable diseases
- Helps reduce outbreaks that can close down your facility and reduce exposure to the costs associated with a shut down

**ELECTROSTATIC SPRAY DISINFECTING SOLUTIONS**

**INTRODUCING THE VICTORY ELECTROSTATIC SPRAYER**

Electrostatic spray disinfecting is widely recognized as a solution that is both efficient and effective. At VANGUARD CLEANING SYSTEMS, we have trained service providers that are providing our customers with this Level2 disinfecting service. By delivering the disinfectant in positively charged droplets, this technology has the ability to fully envelop 360 degrees of a treated surface, increasing both the desired outcome and peace of mind.

**AT-A-GLANCE BENEFITS: VICTORY ELECTROSTATIC SPRAYERS:**

- Touchless Application
- Easy to Operate
- Liquid Adhesion and Coverage
- Portability
- Electrostatic Wrapping
- Cost Effective and Easy to Implement
- Dwell Times
- Eco Friendly

**WHERE CAN ELECTROSTATIC SPRAYING BE IMPLEMENTED?**

- Commercial Office Spaces
- Schools and Daycares
- Manufacturing and Light Industrial
- Warehouses and Logistics
- Medical and Dental Clinics
- Churches and Places of Worship
- Auto Dealerships
- City/Municipal/Government Facilities
